

Orchid

Table

The Orchid light is the most complex in this series as each flower is one of a kind thanks to the variety of dying techniques we use.

To make the orchid shape from flat material was one of the main challenges, the polycarbonate is heated to give it a new memory and form. The composition is inspired by the Japanese art of flower arrangement 'Ikebana' which is asymmetrical and dynamic.

Dimensions

1100mm L x 850mm W x 1100mm high

Materials

Polycarbonate, stainless steel, rubber, Forton, Hydro stone, felt

Light specifications

ES globe - Maximum 75W Halogen
